Keel

Brand & Design System

品牌与设计系统

Version 1.1 October 2026 EN · 简体中文

Steady by design.

稳如龙骨，行稳致远。

A keel keeps a ship upright and on course. Keel, the ERP, does the same for a growing business: sales, inventory, manufacturing and finance run on one calm, dependable system.

Calm

沉稳

Neutrals carry the UI. Colour is used only where it carries meaning.

Precise

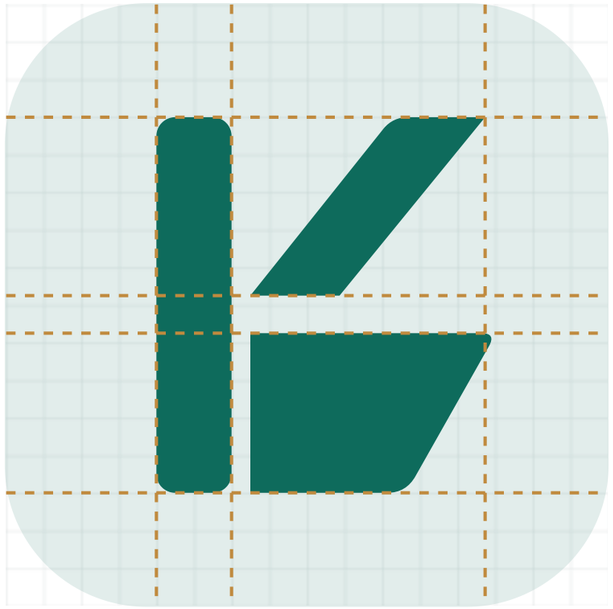

精确

A 4px grid, tabular figures and dense, legible tables.

Bilingual

双语

Every screen is designed in both English and 简体中文.

Mark construction on a 64-unit grid: stem (mast), rising sail and hull wedge together read as a “K”.

Keel

The wordmark is set in Inter at weight 650 with tight tracking, converted to outlines. Use the horizontal lockup by default. Use the icon alone for app icons, favicons and spaces under 120px wide.

Clear space & minimum size

Keep clear space of at least 2× the stem width on every side.
Minimum sizes: icon 16px, lockup 96px wide.
保持四周留白，不小于标志竖干宽度的两倍。

Pixel-optimised favicons (v1.1)

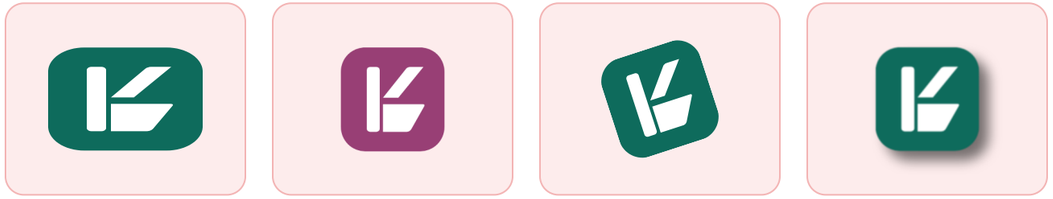

Left: full mark rendered at 16px (soft, sail touches hull). Middle: the new 16px version, snapped to whole pixels, with a 3px stem and a clear 1px gap. Right: the new 32px version. Shown at 10× and 5×.

Do

Don’t

× Don’t stretch
× Don’t recolour
× Don’t rotate
× Don’t add effects

× Don’t place the logo on busy or low-contrast backgrounds

Pairing rules. Inter supplies Latin letters and numbers, and Noto Sans SC supplies Hanzi. Use line-height 1.45 for EN and 1.65 for ZH. Tighten Latin headings by −0.015em and use 0 tracking for Chinese. Use tabular numbers for amounts. Don't use italics in Chinese; use weight 600 for emphasis.
